

OMOKPAOGBEE PATRICK ERHAUYI

Benin City, Edo State, Nigeria

Phone: 08038023891 | Email: patruyi@gmail.com

PROFESSIONAL SUMMARY

Results-driven **IT Leader, Software Engineer, and Acting Chief Information Security Officer (CISO)** with over 15 years of progressive experience spanning **banking technology, software engineering, IT infrastructure, cybersecurity, IT governance, and digital transformation.**

Experienced in designing and implementing secure digital banking ecosystems, developing scalable RESTful APIs, managing enterprise databases, integrating fintech and payment platforms, and supporting high-availability banking infrastructure. Strong hands-on expertise in **Node.js, Express.js, React, JavaScript, PHP, MySQL, MongoDB, REST APIs, and enterprise systems administration.**

Proven ability to lead technical teams, manage technology vendors, implement IT governance and risk controls, support regulatory compliance, and deliver technology solutions aligned with business objectives. Combines practical banking technology experience with software development, cybersecurity, infrastructure management, and strategic IT leadership.

CORE COMPETENCIES

- **IT Leadership & Digital Transformation**
- **Software Engineering & Application Development**
- **Backend Development:** Node.js, Express.js, PHP
- **Frontend Development:** JavaScript, React, HTML5, CSS3, Bootstrap
- **API Development:** RESTful APIs, Third-Party API Integration
- **Database Management:** MySQL, MongoDB, Mongoose, Database Design
- **Digital Banking & Fintech Integration**
- **Core Banking Systems & Banking Applications**
- **POS, ATM & Payment Infrastructure**
- **Payment Gateway & Interbank Switching Integration**
- **IT Governance, Risk & Compliance (GRC)**
- **Cybersecurity & Information Security**
- **Incident Response & Risk Management**
- **Network Infrastructure:** LAN, Routers, Switches
- **ATM/POS First & Second Line Maintenance (FLM/SLM)**
- **Vendor & Technology Partner Management**
- **Technical Team Leadership & Mentorship**
- **Enterprise Systems Deployment & Support**

PROFESSIONAL EXPERIENCE

ABOVE ONLY MICROFINANCE BANK LIMITED — Benin City, Edo State

Head of Information Technology / Acting CISO 2020 – Present

- Lead enterprise-wide **IT operations, information security, technology strategy, and digital transformation initiatives**, ensuring technology services support business and regulatory objectives.
- Supervise technical personnel and coordinate IT service delivery, infrastructure operations, application support, cybersecurity, and technology projects.
- Architect, develop, and deploy secure **backend services and RESTful APIs** supporting web and mobile banking applications using **Node.js and Express.js**.
- Design, optimize, and manage **MySQL database environments and data structures** for reliable and high-volume transaction processing.
- Lead the integration and management of third-party **fintech platforms, payment gateways, POS solutions, interbank switching systems, and digital banking services**.
- Manage technology vendors and service providers, including technical escalation, service performance monitoring, issue resolution, and implementation coordination.
- Oversee the deployment and lifecycle management of mobile banking applications, including **Google Play Console administration, AAB releases, application updates, and production deployment processes**.
- Develop and implement IT governance, risk, and compliance controls aligned with **financial-sector regulatory requirements and organizational risk objectives**.
- Coordinate cybersecurity monitoring, risk assessment, incident response, access control, and security improvement initiatives.
- Support the implementation of technology controls for **customer data protection, transaction security, system availability, and operational resilience**.
- Lead troubleshooting and resolution of critical technology issues affecting banking applications, payment channels, infrastructure, and customer-facing digital services.
- Provide technical leadership for technology modernization initiatives, including application development, digital banking improvements, system integration, and infrastructure optimization.
- Collaborate with management and business stakeholders to translate operational requirements into practical and secure technology solutions.

NIIT — Benin City, Edo State

IT Instructor / Technical Support March 2020 – November 2020

- Delivered technical instruction and practical training in **software development, web technologies, programming, and database concepts**.
 - Provided technical support to students and faculty, including workstation configuration, software installation, troubleshooting, and system maintenance.
 - Assisted learners with practical programming exercises, development environments, application configuration, and technical problem-solving.
 - Supported the effective operation of IT training environments and computing facilities.
-

PMSL — Benin City, Edo State

ATM Support Engineer

June 2020 – November 2020

- Performed **First Line Maintenance (FLM) and Second Line Maintenance (SLM)** on ATM hardware and transaction terminal systems.
 - Diagnosed and resolved ATM hardware, software, connectivity, and operational issues.
 - Supported ATM availability through preventive maintenance, fault diagnosis, escalation, and corrective maintenance.
 - Liaised with relevant technical teams and stakeholders to resolve complex ATM incidents and minimize service downtime.
-

FIRST BANK OF NIGERIA — Benin City, Edo State

IT Analyst – End User, ATM & POS Support

2010 – 2019

- Provided **Tier-1 and Tier-2 technical support** for enterprise banking applications, hardware, network infrastructure, ATMs, POS terminals, and end-user computing environments.
- Supported branch technology operations, ensuring availability and effective operation of critical banking systems and technology infrastructure.
- Managed and supported **ATM and POS terminals**, including device configuration, troubleshooting, maintenance, and connectivity issues.
- Configured and supported **LAN infrastructure, routers, switches, workstations, printers, and other enterprise IT equipment**.
- Diagnosed hardware, software, network, and application incidents and coordinated escalations where required.
- Supported the deployment, configuration, and maintenance of banking applications and end-user systems.
- Conducted technical onboarding and application training for branch personnel.
- Supervised branch-level IT support activities and coordinated resolution of technology incidents.
- Assisted with technology rollouts, equipment deployment, system upgrades, and branch IT infrastructure projects.

- Maintained operational continuity by proactively identifying and resolving recurring technical issues.
-

OCEANIC BANK PLC — Auchi Branch, Edo State

E-Business Representative / Customer Service Officer 2008 – 2009

- Supported customers with electronic banking products and services.
 - Assisted customers with account-related enquiries, transaction issues, and electronic banking channels.
 - Promoted effective adoption and usage of electronic banking services.
 - Provided front-line customer support while maintaining service quality and compliance with banking procedures.
-

PHCN — Oregbeni Service Unit, Benin City, Edo State

Industrial Trainee 2007 – 2008

- Participated in technical and operational activities within the service unit.
 - Assisted technical personnel with field operations, equipment handling, maintenance activities, and routine administrative tasks.
 - Gained practical exposure to electrical infrastructure and utility service operations.
-

EDUCATION

B.Sc. Computer Science

Ambrose Alli University, Ekpoma, Edo State
2013 – 2019

HND, Electrical/Electronics Engineering (Telecommunications)

Auchi Polytechnic, Auchi, Edo State
2009 – 2012

OND, Electrical/Electronics Engineering — Upper Credit

Auchi Polytechnic, Auchi, Edo State
2005 – 2007

Senior School Certificate Examination (SSCE)

ICC, Benin City, Edo State
1998 – 2004

PROFESSIONAL TRAINING & CERTIFICATIONS

- **Full-Stack Web Development (Frontend & Backend)** — Betechnified | 2025 – 2026
- **Cybersecurity Infrastructure & Risk Management** — Summit Systems | 2024
- **ATM & POS Support Engineering** — FLM/SLM Specialist
- **Network Infrastructure Deployment** — Switch & Router Configuration
- **Enterprise Systems Deployment** — Omniflow / Windows Server Environment

TECHNICAL SKILLS

Programming & Development:

Node.js, Express.js, JavaScript (ES6+), PHP, React, HTML5, CSS3, Bootstrap

Backend & APIs:

RESTful API Development, API Integration, Authentication, Backend Architecture

Databases:

MySQL, MongoDB, Mongoose, Database Design, Schema Design

Banking Technology:

Core Banking Systems, Digital Banking, Mobile Banking, Internet Banking, POS, ATM, Payment Gateways, Interbank Switching, PayDirect

Infrastructure:

LAN, Routers, Switches, Windows Server, Workstations, Network Troubleshooting

Security & Governance:

Cybersecurity, IT Governance, Risk Management, GRC, Data Protection, Incident Response, Security Controls

Tools & Platforms:

Git, GitHub, Google Play Console, Enterprise Banking Applications, Payment & Fintech Platforms

LEADERSHIP & PROFESSIONAL STRENGTHS

- IT Strategy & Technology Leadership
- Digital Transformation
- Cybersecurity & Risk Management
- Regulatory Compliance
- Technical Project Management
- Vendor & Stakeholder Management

- Team Leadership & Mentorship
 - Problem Solving & Incident Management
 - Business-Technology Alignment
 - Customer Experience & Service Delivery
